## ABOUT US

Hamdard is a fully integrated facility with an indoor area of approximately 5,000<sup>2</sup> square meters in Kastamonu Tosya.

We aim to produce products suitable for our own genetic structure by bringing the knowledge and experience of 200 years of herbal and ayurvedic studies of Bangladesh to our own country.

Our factory, which can also provide R&D support and was established entirely with Turkish capital, acts with the awareness of social and ethical responsibility.

With its innovative vision, we aim to grow both in the domestic and international markets with 100% natural, protective and health-supporting products.
